Flu Vaccination Programs 2024

A Corporate Health Management service.

Onsite and Voucher Corporate Vaccination Programs designed for ease and peace of mind.

What is the Flu?

Influenza (the flu) is a highly contagious, viral infection. It may be mild for some; however, it can cause very serious illness, hospitalisation and even death in otherwise healthy people. It can be especially serious for babies, people aged over 65, people with underlying medical conditions and pregnant women.

In Australia each year, the flu causes widespread illness resulting in substantial cost and loss of productivity for workplaces and organisations.

Immunisation is the best protection against the flu for you, your team, your business and the community.

By getting immunised, you also help protect those that are too ill or too young to be immunised and help slow the spread of the disease.

Annual immunisation is recommended in autumn (March – May) each year, prior to the peak of the flu season.

It is important to get the flu vaccine every year. The virus strains that cause the flu change each year and the vaccine changes each year to match these strains.

Why choose a Flu Vaccination Program?

Issues and challenges companies now face.

Organisational Risks

CHM's Flu Vaccination Program Solutions

Poorly run and attended flu programs can hurt an organisation on many fronts, including increased absenteeism, loss of productivity and drop in workplace moral.

CHM are part of the Department of Health's National Vaccine Administration Partners Program (VAPP). We have run thousands of onsite vaccination clinics and can deliver a successful program unique to your needs.

Most organisations require a team of staff dedicated to managing their flu program.

CHM absorbs a majority of the time consuming administration, freeing your staff. We only need you to review and accept our competitive flu vaccination quote.

With the current hybrid working environment, it is difficult to get all staff to attend a flu vaccination program run onsite.

With CHM's flu vaccination programs, you have the option of running an onsite program plus you can also purchase flu vouchers for your employees. Online flu vouchers can be redeemed at over 1,000 chemist partners across Australia.

Large organisations have multiple sites and must ensure all employees are included in the flu vaccination program.

Our flu vaccination program can be delivered to all metro & regional areas of the state. No matter the logistics, we'll ensure your programs runs smoothly.

It is difficult to monitor a flu program and report to management how successfully the program is running.

CHM provide up to date reporting outlining employee participation across all delivery sites.

Onsite Influenza Vaccination Program

Our onsite Vaccination Programs are created in collaboration with your business, enabling us to customise the right approach for your employees to maximise engagement. CHM's experience and expertise managing all types of workplace vaccination programs, staff health and wellbeing programs sets us apart.

Our approach is to make the end to end process as seamless as possible, and we accomplish this by being easily accessible in a location that your employees feel comfortable with.

Onsite Program Benefits

- **Utilising an easy to use bookings system**
- **An engaging support team at our head quarters to assist your employees every step of the way**
- **Recording all vaccination status directly to the Australian Immunisation Registry**
- **Supporting your employees to feel safe and comfortable with our vaccination team and answer any questions staff may have about side effects and after care post vaccination.**

CHM's Easy 4 Step Process

Consultation and design

Marketing and booking process

Vaccination programs

Reporting

- We offer dedicated support to set up and implement your business's program based on your individual needs.
- We make it easy for staff to book and manage their appointments, when it suits them during their workday, with our easy and highly secure booking system.
- Our vaccination system is linked directly to the Australian Immunisation Registry (AIR) giving employees immediate access to their COVID 19 and Influenza (Flu) vaccination record as we do this live.
- You will have access to live, up to date reporting on how your program is going and whether you need to run additional engagement campaigns.
- At the end of the campaign you will get a full, deidentified report outlining employee's participation and success of your program.
- We are able to implement vaccination programs and other health and wellbeing services in all locations, nation wide.

Voucher Influenza Vaccination Program

Flu vaccination vouchers are a cost-effective method of supplying your employees with a flu shot. Pharmacy flu vaccination vouchers can be easily organised online by CHM. In particular, employees unable to attend an onsite clinic, working off-site or working from home may find a flu voucher a more accessible solution to obtaining their flu jab.

Booking is easy: The link we provide your organisation provides access to CHM's online portal, on a computer or phone, where staff can see all participating pharmacies at the location convenient to them, select their Pharmacy chain, and have the voucher emailed to them instantly.

Through our pharmacy partnership program, CHM have access to dozens of pharmacy brands, which gives employees access to over 1,000 clinics Australia wide. This exclusive access gives CHM one of the largest flu voucher networks in Australia.

Skin Check Service Flow

Run your Flu Voucher campaign via our online portal. We have over 1,000 flu partners across Australia.

Employees select their most convenient flu chemist partner from the flu voucher site.

Flu voucher participants book their flu appointment with the selected pharmacy.

We provide a flu voucher report and issue you an invoice at the end of each month during the flu season.

All vouchers issued will be invoiced each month, so no need for individual employee reimbursements, reducing the workload for staff, authorising managers and your finance team.
